

Sectra Table F18

Technical specification

Improved medical education and training

Sectra Table allows medical staff and students to gain an enhanced understanding of the body's anatomy and functions, the variation between individuals and of more unusual diseases. The table is a terminal for the Sectra Education Portal, a unique concept for sharing patient cases, teaching content and knowledge with other universities using the Sectra Table.

Larger monitor with stunning depth and striking contrast

Sectra Table model F18 features a large 65 inches monitor with a 4k resolution and a capacitive touch interface, vastly improving the sense of interaction with the visualized data, given that users can now navigate even quicker and easier. The QLed technology turns light into breathtaking colour to see every little detail and experience picture quality with extreme depth and bold contrast.

Width: 1547 mm

Height: min. 795 mm (in table mode)

Height: max. 1185 mm (in table mode)
